My business can help offset transportation costs for families in Prince George

TDA + Homeschool Centre

is a Registered Charity who is a quality independent education provider serving the Prince George area.

Private schooling is far from affordable for many families, so **TDA + Homeschool Centre** is endeavoring to help make quality independent education more affordable and attainable for local families as well as provide a permanent location for a full offering of educational programs.

Parents have asked for more involvement in the overall educational plan for their children as well as transparency in curriculum and classroom proceedings. Parents who are searching for a return to the fundamentals of academics have few options, but **TDA + Homeschool Centre** is currently meeting that need in Prince George by providing programming and educational support from kindergarten through grade 12 graduation without government funding.

However funding is urgently needed as tuitions only cover a fraction of the costs per student, and some families cannot afford the cost of even a minimal tuition.

TDA+

Homeschool Centre

TDA + Homeschool Centre offers an alternative education with high academic standards that engages the student. A full STEAM curriculum is offered to include: Science, Technology, Engineering, Arts, and Mathematics.

TDA + Homeschool Centre can curate programs beyond the BC standard curriculum ensuring excellence in academics. As a functional homeschool centre, it will not be limited to hiring only BC Certified Teachers but can select the best talent to inspire and support students in any given area of study.

The instructors and learning support staff value each student's unique learning style understanding how the complexities presenting go beyond simply neurodivergent or neurotypical, and that is why extensive consideration is given with parents to select custom curriculum for each student — not just those with an official IEP (Independent Education Plan). The educational staff at TDA believe that every child can learn in their own way, naturally and holistically, and will support parents who wish to provide their child with an education without medication.

Students are not held back by the classroom's status quo and are supported to surpass anticipated timelines of learning.

Let's partner now for private education!

Give Prince George a Homeschool Centre and Support Independent Education

TDA + Homeschool Centre understands the need for Quality Independent Education where parents can guide educational priorities; teachers and tutors can compliment the learning style of each student; and where curriculum is academically accountable. To meet this need in Prince George, TDA + Homeschool Centre is looking for a permanent location. But purchase of a building entails steep refitting costs to make it a comfortable and quality facility for students.

Now is a unique opportunity to be a part of this and help TDA + Homeschool Centre open its doors at a new location for this school year and for supporting Quality Private Education in Prince George.
