

TDA⁺

TDA + Homeschool Centre is a Registered Charity that is a quality independent education provider serving the Prince George area.

Parents have asked for more involvement in the overall educational plan for their children as well as transparency in curriculum and classroom proceedings. Parents who are searching for a return to the fundamentals of academics have few options, but **TDA + Homeschool Centre** is currently meeting that need by providing a warm classroom setting located in central Prince George. With educational programs from kindergarten through grade 12 graduation, students are not held back by the classroom's status quo and are supported to surpass anticipated timelines of learning.

The educational staff at **TDA + Homeschool Centre** believe that every child can learn in their optimal way, naturally and holistically, and will support parents who wish to provide their child with an education without medication.
